

I Nativi Americani

Una volta

in nord America

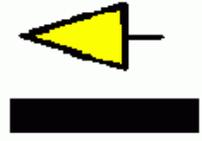

non abitava

nessuno

anche se li

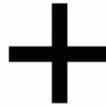

c'erano

molte

piante

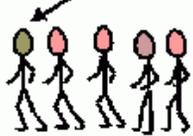

e

molti

animali

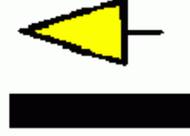

I primi

ad abitare

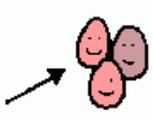

il nord America

furono

gli Indiani

Essi

partirono

dall'Asia

e

arrivarono in nord America.

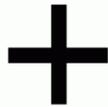

Il loro lavoro quotidiano consisteva nel procurare

cibo

riparo

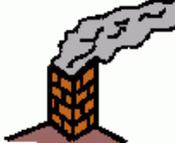

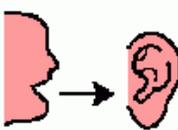

e

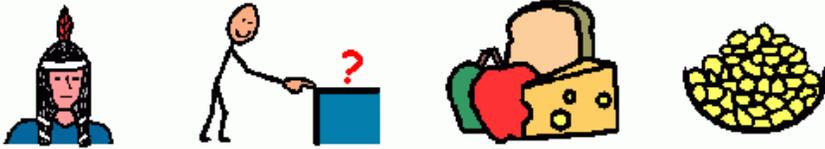

vestiti

Gli Indiani comunicavano con segnali di fumo

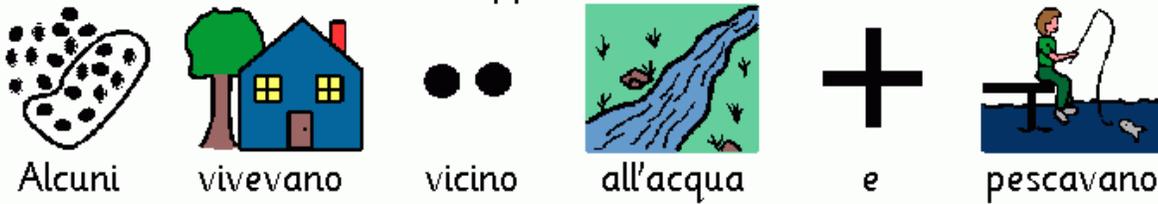

Gli Indiani si procuravano da mangiare in molti modi.

Alcuni mangiavano soprattutto carne e

cacciavano con archi e frecce oppure con lance e bastoni.

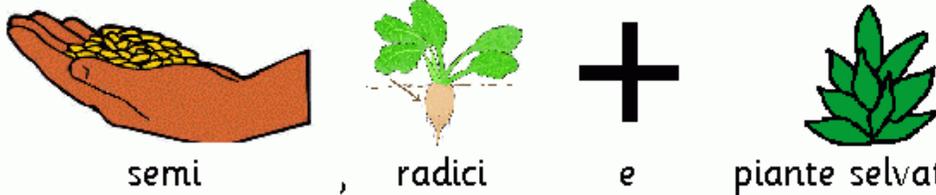

Alcuni vivevano vicino all'acqua e pescavano

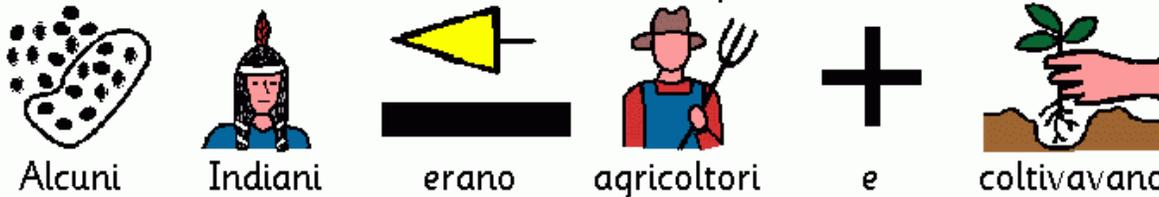

con arpioni e lance, ami e lenze, reti e trappole.

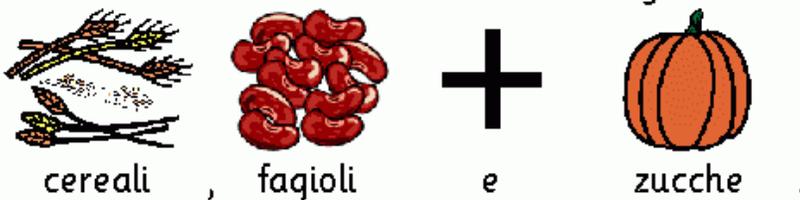

La maggior parte degli Indiani mangiava bacche, noci,

semi, radici e piante selvatiche.

Alcuni Indiani erano agricoltori e coltivavano

cereali, fagioli e zucche.

Alcuni

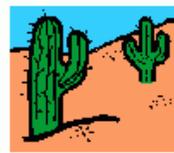

Indiani

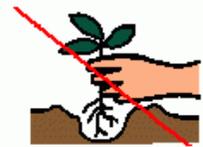

vivevano

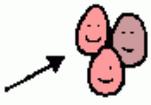

in luoghi

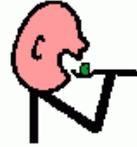

aridi

dove non si piantava nulla;

essi

mangiavano

serpenti

topi

radici

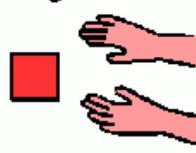

e

cavallette .

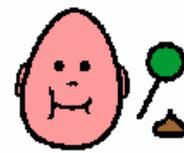

Alcuni

raccoglievano lo sciroppo d'acero ,

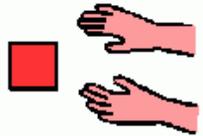

molto

dolce

alcuni

raccoglievano le ghiande

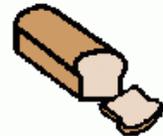

e

con la loro farina

facevano

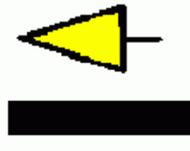

il pane .

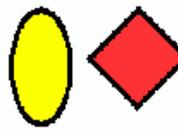

Le case

degli Indiani

erano

di vario tipo .

Gli Indiani **nomadi** (che si spostavano spesso) avevano

le teepe che si smontavano

e

rimontavano velocemente .

Alcuni

Indiani vivevano in capanne di paglia.

Alcuni

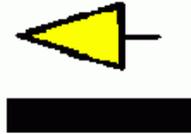

Indiani vivevano invece nelle wigwam , ricoperte di foglie.

Gli Indiani del sud America abitavano nei pueblo .

I vestiti degli Indiani

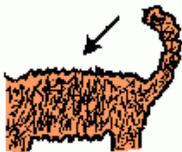

erano

simili tra loro .

Erano generalmente di pelle di daino o di bufalo ;

si usavano molto anche la pelliccia del coniglio

e

le piume

di uccello .
